Worry Free Living - @ No1 Resort

The great thing about the No1 Resort is that there's no restriction as to whether you live in the property permanently, keep it solely for your own holiday use or put into the rental pool and earn a return on your investment.

This 'dual key 'apartment provides the opportunity in keeping part A for your own use & letting part B within the rental pool smart thinking perhaps. The apartment looks directly over the stunning resort pool and surrounds, and you're only a few steps from the indoor pool plus The Espy Bar & Eatery. Forget the car and take leisurely walks along the waterfront past the fishing fleet to shops, restaurants and other town attractions and immerse yourself in everything Lakes Entrance.

A great opportunity to invest in our strong little coastal town.
