The Miller will set a new standard for high quality, urban living, in one of North Sydneys finest locations. The project was designed by world-renowned architects PTW, the designers of Beijings iconic Water Cube aquatic centre and Barangaroo Alexander building. The architecture is defined by a sophisticated sculptural composition which sees the handsome 21-level residential tower levitated over an alfresco plaza with a show-piece modulated podium and landscaped parapet. The Miller is crowned by a stunning rooftop deck and garden space where residents will be able to take in panoramic views of Sydney Harbour to the south. A north-facing common roof terrace on the top level will feature bbq facilities, seating and outdoor dining areas.
