Here, you will experience the ease and exclusivity of having VIP Concierge service, available 7 days a week to assist you with all manner of things.

Just 90 minutes south of Sydney, this stunning "sky home" was inspired by the perfect climate, magical golden light of the sunrise over the ocean and relaxed lifestyle of the area.

This penthouse has been created with elegance and 5-star luxury in mind and features the highest quality natural stone finishes, offset against soothing oak tones, alongside state-of-the-art appliances. It is unparalleled in size and proportion with two generous living areas and two separate private outdoor terraces encompassing some 250 m² of habitable space.

The stunning design has taken every fine detail into account with all finishes meticulously considered with your comfort top of mind. With impressive ceiling heights and double-glazed floor to ceiling balcony sliding doors, the apartment is filled with natural light and boasts a highly regarded North facing aspect. The spacious living areas feature a harmonious palette of subtle hues and natural textures to complement the serenity of the outlook.

This penthouse apartment has its own unique personality with a mix of classic combinations of white set against the warmth of oak, with herringbone flooring in the living areas and marble terrazzo throughout the wet areas.

The generously sized bedrooms with ensuite to the master are created to offer private sanctuaries with ample space for rest and relaxation at any time of the year. All are fitted with impeccable essentials with custom vanities as standard, brushed nickel tapware, ample wardrobe space as well as freestanding baths for that added sense of luxury.
