Penthouse Perfection

A delightful apartment to represent, a property that has a soul.

Positioned on the top floor with guaranteed views across a variety of waterways. Direct view to Nobbys, the Marina and down Throsby Waters that are unable to be compromised. A view to Mt. Sugarloaf and beyond with the privacy of no adjoining buildings.

The apartment itself has been customised with a number of tasteful and functional additions.

- A built-in television space that is complemented by the fireplace and surrounds.
- External retractable screens that have a dual function of privacy plus deflection of the late afternoon sun.
- A wrap around two sided verandah system that captures the part of the north east breezes.
- A functional kitchen with power to the island bench and a laundry that is a room.
- Timber floors through the living areas and quality window furnishings.
- Security car space and storage all within a security building that also offers a residents rooftop lounge.

One for the 'must view ' list.
