Casa di Archi (the house of arches) draws inspiration from both the architectural style and the relaxed, family-focused lifestyle enjoyed on the Mediterranean coast. A series of arches, textured whites and natural materials, are layered into a coastal aesthetic with a warm organic feel. The home's inclusions and functionality have been thoughtfully planned for living well through all stages of family life, with resort-like ease and enduring style. Sold off market by Blake Spooner & Luke Ingram. In collaboration with Yarralong Projects who are leading the way in luxury home build and design in the Sutherland Shire.
