TRANQUIL ACREAGE LIVING

If you are wanting a change that affords you country living, but is still close enough to all amenities and the highway, then this is the property for you. Set at the end of a cul-de-sac, this low set brick home is ideal if you are wanting to start your new lifestyle.

As you enter the spacious lounge area, you will notice that this property is not lacking in size. Fully tiled living areas including an air conditioner in the living area. The kitchen is open plan with full electric appliances and overlooks the dining and family rooms. These rooms open onto the alfresco area, where you can sit and waste your day away.

Four good size bedrooms, all carpeted and built in. The master bedroom has a walk in robe and ensuite and is also air conditioned. This room is at the front of the house, set away from the other bedrooms, ensuring your privacy from the rest of the household.

All of this is set on just over an acre of land, giving you plenty of room for the kids or animals to roam, and to put up a shed if you desire.

Don't delay the inspection of what could be your next family home!
