Effortless Multi-Generational Home In A Perfect Setting

This is a rare opportunity to purchase an extraordinary home with a highly flexible floorplan that is tailor-made for multi-generational living. Positioned high-side in a quiet traditional street, the classic full brick home has been extensively added to, creating a substantial floorplan. The current design features two approved full kitchens and a door that can separate the two wings of the home to create a four bedroom self-contained residence plus a second two bedroom residence. The architectural extension is light filled and stunning with a centrepiece stone wrapped kitchen and covered alfresco areas. Four of the home's six bedrooms include an ensuite promoting luxury. The options for family living are endless here, complete with off street parking for four cars, an office and a workshop. The premier address is a stroll to the bus, station, quality schools, shops and dining.
