Family Appeal Amidst Botanic Beauty

Perfectly private behind a screen of leafy established trees, this inviting residence reveals a series of superlative single level spaces, each individually welcoming, all forming a fantastic combination complemented by exceptional dimensions for outdoor entertaining. Three distinctly zoned areas for living, dining and family enjoyment that deliver ideal flexibility are arranged around an open-plan kitchen offering style, space and a walk-in pantry while the alfresco allure of a substantial under-cover patio extends to the low-maintenance backdrop beyond. A main bedroom featuring a walk-in robe and luxuriously large spa bath ensuite precedes two additional double bedrooms that incorporate built-in robes and are zoned either side of a central bathroom offering a family friendly separate bath and shower. A dedicated study adds its own appeal to a home that's completed by a spacious separate laundry and a secure double garage on an allotment of significant natural beauty, desirably situated moments from Altona Green Park and Primary School, the Bay Trail West and WE Hubble Reserve Playground.
