Type: House

Dual School Zone, Golden Interior, Powerful Solar

Step inside and you'll appreciate the beauty and practicality of this top to toe transformation set in the school zone for Wheelers Hill Primary and Brentwood Secondary zone (STSA).

A gorgeous, new interior shines with Belgian-made waterproof surface floors – a golden hue that lifts the room and is watertight to withstand life's spills.

The home's stunning new kitchen, bathrooms, doors, handles and tapware are matched by a powerful 8kw solar system for low-cost renewable energy – creating a renovation that marries style with substance.

High side west facing frontage assures you of plenty of light, for a bright setting and consistent energy supply.

Elegant marble mosaic tiling brings an Italian aesthetic to the kitchen, further enhanced by stone top benches, 2 pac cabinets, a durable Franke black granite sink and premium Bosch and Fotide appliances.

For young families, an impressive sized living room, meals area and two covered outdoor areas provide an easy living setting across a single level layout.

The secured rear garden also features both paving and a small pocket of lawn, with privacy screening along the fence.

It's the perfect property for families wanting a fully renovated home close to schools, shops, parks and travel connections including Eastlink, the Monash Fwy, The Glen, Wheelers Hill Shopping Centre, and the coming upgrade of Brandon Park Shopping Centre.
