This 1950's cottage has been overhauled into a beautiful modern cottage. Boasting two bedrooms in the main home and a sleepout out the back of the property, this home will appeal to many buyers. The added rear area offers open plan kitchen, lounge and dining and is a great place to spend time with the family. The tiled floors are easy clean and the kitchen is ready for you to cook up a storm! The bathroom has been renovated and is in great condition. The electrical system is totally new throughout when the property was renovated, as well as the roof. Out the back you have the original single car garage/workshop, the big sleepout room and another storage room which could also be completed into another bedroom. For a small cost this property could become 4 bedrooms easily! Arno Bay sits right in the middle of Port Lincoln and Whyalla and is a great place to base yourself. The beaches in Arno Bay are some of the best in Australia, there are so many places to explore in the region and beyond into the beautiful Eyre Peninsula. These quaint cottages are magnificent old buildings, they don't come up often and this one is already renovated for you to move straight into. We are seeking your best offer by September 29th 2023.
