There are houses and there are houses and then there is the utter masterpiece that is 14 Teague Street. This early 1900's tuck point red brick residence is exceptionally unique, having garnered recognition in the Sunday Times Habitat magazine and being approached and used for television commercials. Features of this property include three bedrooms, each boasting built-in fireplaces, with a total of five fireplaces throughout the home. The master bedroom features a walk-in robe and built-in designer ensuite. A second bathroom showcases an exposed brick wall, freestanding bath, and timber floorboards. Additional features include three toilets, a modern open-plan kitchen, stone benchtop with waterfall edges and equipped with a double oven, filtered water Billi tap, dishwasher, breakfast bar, and ample storage. The dining area is generous, perfect for dinner parties. The living area seamlessly transitions to a private, decked alfresco area ideal for year-round entertaining. The property retains its original charm with polished floorboards, air conditioning throughout, and a spiral staircase leading to an upstairs loft suitable for a home office or fourth bedroom. Additional features include high ceilings, ornate roses, leadlight windows, chandeliers, security fly screens, and a new solar system with 16 panels and an inverter. The property is fully enclosed with an electric security gate and off-street parking for two cars. An alarm system with motion-activated security cameras provides added security. A second entertaining area or children's play area, an Edwardian tessellated tiled entrance, and a beautifully landscaped rear garden sanctuary with an outdoor shower complete this exceptional property. Situated on a green title corner block, this property is merely minutes from the vibrant cafe strip. Seriously, one of the finest homes in the area, you will be impressed, I promise.
