Modern and magnificent.

Seamlessly interacting with its tranquil environment and built to offer a luxurious family living experience with its three living zones, dedicated children's quarters, quality finishes and brilliant outdoor entertaining on a beautifully landscaped 653sqm (approx.) block, this magnificent family home strikes the perfect balance between lavish high-end living and day-to-day practicality within walking distance of schools, Bolton Street shops, Eltham Leisure Centre, transport and recreational parklands.

Indoor-outdoor living is a design feature celebrated by the spectacular open-plan living area, which makes a statement with its vast sense of space, polished timber floorboards, elite entertainer's kitchen, soothing leafy aspects and, of course, its integration with the sensational alfresco perched among the treetops.

Rug up in front of the gas log fireplace and enjoy movie nights with your loved one in the private living without worrying about disturbing the kids, who have the freedom of playing their games in the upstairs rumpus, which forms part of the dedicated children's accommodation zone comprising three spacious bedrooms and a stylish bathroom.

Enhanced with a luxurious master bedroom downstairs (with ensuite), picture-perfect backyard with a relaxed fire pit area, remote double garage with storage and ducted heating/cooling, it's an elite Eltham family upgrade!
