THE HIDDEN PARADISE

This property is set in the middle of a private rainforest and is 8223 square metres in size.

This is a very well designed home for a family with 4 bedrooms. Master bedroom with ensuite. Each bedroom has built-in wardrobes.

The 4th bedroom is adjacent to the main house all undercover but detached with a private living area for guests or big kids.

The pool is set in the garden which is open to full sun for most of the day.

There is a giant blokes 3 bay shed nestled into the rainforest.
