TRANQUIL - PRIVATE - STEEL FRAME

Bright, airy & spacious.

If you love lush tropical gardens and privacy you're on the right track with this great family home.

Offering multiple living areas, a great kitchen with loads of storage, solar panels, fully screened, new air conditioners and hot water heater, a recently added undercover awning that adds to already expansive outdoor living and entertainment area and a new front fence with electric gate plus much more.

The home is steel framed which is perfect for our tropical environment and has also had a recent pest barrier treatment. The garage has been renovated to accommodate two extra bedrooms and a study area, this presents a great area for extra guests, a work from home office or a great studio space. The inviting 4313m² block has fencing in place near the house for the smaller children or fur babies. The property is located in the very sought-after Top of The Range Estate which offers town water and a quick zip to all major amenities.
