Move In and Enjoy Life in the Country

This recently renovated home, set amongst an established garden, is ready for you to just move in and enjoy life in the country.

The home features a flexible floor plan, perfect for today's modern needs, with three generous bedrooms, a spacious and light-filled kitchen with stone benches and stainless-steel appliances, a recently upgraded bathroom, and living areas with French doors that open out to a large undercover entertaining area, ideal for stretching out and relaxing.

Boasting double glazed windows, fully insulated walls, ceilings and floors, and reverse cycle heating and cooling in all bedrooms and living room, year-round comfort is assured.

Outdoors there is a wonderfully mature, yet low maintenance garden, double garage and workshop with remote access and a 2,000-litre rainwater tank.

Perfect for those looking for their first home, to downsize or invest into a charming country town, just an hour to Melbourne by road or via the V-line station.
