Ideal In Space, Style AND Setting

Surrounded by a substantial block of approximately one acre in total, this property's balance of indoor proportions and outdoor dimensions is attractive from every and any angle.

Extensive frontages and a return driveway that accesses this address from both Chamberlain and Adaili Streets make a significant first impression that complements the three bedroom homes' elegant lines and striking presence.

Once inside, the style continues to convey a lasting impact as a bright dining area and a separately zoned lounge that's wired for rear projection/surround sound deliver immediate desirability.

A kitchen with a walk-in pantry performs its role perfectly while a fully tiled bathroom provides an equally ideal accompaniment to the three bedrooms that each incorporate built-in robes.

A separate laundry contributes further convenience to a home where the engaging indoor character is enhanced by a brilliant outdoor entertainment area featuring elegant, low-maintenance paving against a leafy, landscaped backdrop.

The presence of fruit trees and the exceptional depth of the block ensure appreciation of an address, with a purpose built 10m x 8.7m garage for two cars plus workshop/shelving, only moments from Ulverstone town centre and the Ulverstone High School campus.

For further information or to arrange an inspection, contact Gareth on 0410 441 417.
