Much loved family home which oozes charm. So very different to the rest. Very modern kitchen and renovated bathroom and ensuite with floor to ceiling tiles in the main bathroom. Two separate living areas with kitchen overlooking dining and lounge and then a sunken lounge room further up the hall. Master bedroom is sunken as well. Outside is located a deck which wraps around two sides of the home. One deck on the north. Then there's an area at the front of the home to sit and ponder and a barbeque area on the eastern side of the home where you will find the fish pond.
