Elevated “Tree House” living in a private bush setting

Built in 2013, this unique home combines modern design with the tranquility of a bushland setting, offering a perfect blend of style and comfort. Constructed with durable Ecoply and Colorbond materials, this property sits within a sought-after new homes area, delivering a peaceful lifestyle just minutes away from urban conveniences.

The home boasts an elevated position, creating a “tree house” feel with stunning views across the tree canopy from the floor to ceiling windows. Its spacious single-level floor plan provides flexible living options with 5 bedrooms, or 4 bedrooms plus a study, ideal for a growing family or those seeking a home office. The main bedroom features an ensuite bathroom, while the family bathroom offers a separate shower and bath.

Designed with comfort in mind, the property is double-glazed throughout and includes bi-fold windows in the dining room that open up to embrace the serene outlook. The galley kitchen comes equipped with quality appliances, perfect for culinary enthusiasts.

An undercover entertaining area provides a great space for outdoor gatherings, and it can easily be converted back into a carport if additional off-street parking is desired. The generous 1,684 sqm fully fenced bush block ensures a low-maintenance lifestyle, allowing you to spend weekends enjoying the things you love rather than tending to lawns.

Located just minutes from all major shopping and services in Glenorchy, and a mere 8km from Hobart's CBD via neighboring Lenah Valley, this home also falls within the catchment area for a variety of quality schools, making it an ideal choice for families.

Experience the best of both worlds with this modern and unique, private retreat close to city conveniences.
