Dual Living Masterpiece with City Views Perfect for Large Families

*** Expressions of Interest - Closing 16th December 2024 at 12pm - If not sold prior ***

This stunning 9 year old executive home built by Craig Burrows Homes offers a rare combination of luxury, versatility, and functionality, making it perfect for dual living or large families seeking a spacious and elegant lifestyle. Perched in an elevated position, the property enjoys sweeping city views and boasts a thoughtfully designed layout spread across three levels, ensuring privacy and comfort for everyone.

The main level serves as the heart of the home, featuring a stylish kitchen equipped with sleek stone bench-tops, modern appliances, and ample storage, ideal for both everyday meals and entertaining. Adjacent to the main kitchen is a butler's-style kitchen and laundry for added convenience. On this level, one of the three opulent master suites takes center stage, offering direct access to the pool, a vast walk-through robe, and a luxurious ensuite. This floor also accommodates three additional spacious bedrooms, a cleverly designed three-way bathroom, and two expansive living areas that effortlessly flow onto an entertainer's patio, where you can relax or dine while overlooking the impressive city views.

The top floor is a private sanctuary, featuring a penthouse-style master suite complete with a walk-in robe, an elegant ensuite, and its own private patio.

The ground floor provides a haven for extended family, teenagers, or guests, with three separate living areas, abundant storage options, a third master suite, and even a steam room for ultimate relaxation.

The outdoor spaces are equally impressive, designed for minimal upkeep while maximizing enjoyment. The centerpiece is the pool, which includes an Endless Pool system, perfect for those who value fitness or enjoy year-round swimming. The property's off-street parking options are extensive, making it ideal for families with multiple vehicles, caravans, or boats.

In addition to its many lifestyle amenities, the property is equipped with a 6.6kW solar system, offering energy efficiency and reducing utility costs.

Perfectly designed for multi-generational families, entertainers, or those simply seeking a lifestyle upgrade, this remarkable property offers something for everyone. With its breathtaking views, exceptional layout, and endless features, this home is an opportunity not to be missed.
