33 Peter St, Strathpine sits in a nice quiet St with shops, schools parks nearby. The upstairs downstairs set up has so many applications for families and investors alike.

Upstairs has beautiful polished timber floors with 3 x generous rooms and a renovated bathroom. This flows out to the front deck, a place for relaxing with a coffee as the birds chirp in the trees nearby.

Downstairs has internal access and a very large bedroom with another renovated bathroom and open living. The shower is double size with a shower niche and modern white tiles to the roof.

The land size is a generous 660m² with plenty of yard and space for any future projects such as a pool or extended deck. However you don't have to do anything if you choose not to as it's ready to move straight into with renovated bathrooms on both the top and bottom level.

There's also lots of storage throughout including in the laundry.
