Enchanting Lifestyle Retreat for the Family

Embrace the character and indulge in the comfort of this 4-bedroom, 2-lounge stunner, stimulating the senses with its soaring ceiling profiles, contemporary interiors and enchanting alfresco spaces across its lifestyle-focused 892 sq. metre (approx.) allotment.

The immediate allure of its charming cottage facade is enhanced by the modern comforts of its recent rejuvenation, delivering ample family space with two large and vibrant lounge areas across its ground level. The kitchen is a delight with premium appliances and fantastic storage options, opening to a covered deck that's merely the beginning of an incredible outdoor landscape.

Stunning established trees and gardens surround meandering pathways leading across a fish pond to the greater expanse of the rear yard, where form meets functionality with a large garage/workshop and an additional storage shed. Back inside, the three bedrooms consist of a downstairs master with a walk-in robe and ensuite, plus two additional bedrooms on the striking upper floor around a central bathroom.

Sparing no cent with split-system air conditioning, gas heating, and thriving vegetable gardens, it sits in one of Somerville's most craved lifestyle settings, echoing with nature and birdsong yet just moments from schools, parklands, public transport and relaxed village shopping.
