## **THE ULIMATE OUTDOOR LIVING**

A beautifully maintained family 3/4 bedroom home situated in the Heritage Springs Estate. There is plenty on offer here with the home boasting three living areas being a formal lounge complete with feature window, family living and meals with external access and of course the rumpus area that allows for movie watching, sports action or just the kids toys separate to other areas of the home. The kitchen is located centrally and includes 900mm induction hot plate, electric oven, dishwasher and pantry while having easy access to the magnificent outdoor entertaining area complete with SFH, feature fireplace, built in bar, cafe blinds where your family, extended family or your friends will just love. Plenty of room for cars, boats, caravan or simply storage with a triple garage and high clearance car port which has direct access from the street. The house is unique with all its living options and benefits which I'm sure the new owners will enjoy immensely as those before have done. It's a chance to upgrade, downsize or just move into your new home!!
