Sheer Comfort Expressed with Effortless Class in a Prized Street

Elevated for scenic views extending to the ocean, this superb home promotes family comfort in a statement of contemporary style and elegance. It is perfect for entertaining, culminating in a designer outdoor setting boasting landscape artistry and a magnesium pool.

Composed by Nelson Thomas and Yvonne Beckhurst, the landscape design promotes inner peace as well as intimate connections with family and friends, offering a barbecue station and bespoke sitting areas amidst greenery where you can follow the sun.

Natural light plays a leading role in this duplex-style residence, pouring in from a sequence of skylights to assure both levels feel fresh and bright. Accentuating the vibrancy of rooms are the pale tones of the Travertine and oak surfaces, as well as the marble finishes that feature in the living area, the kitchen and bathrooms.

Presenting family accommodation across four bedrooms, the upper level presents some lovely surprises. Brand-new woollen carpet provides the feeling of luxury under foot. At one end, the master suite steps onto a balcony where the views capture ocean glimpses, as does another huge bedroom at the rear, which also overlooks the pool.

This residence enhances the flow of day-to-day living with intelligent design solutions that also include an abundance of storage and internal access to the garage. It is merely 250 metres from shops and buses along Old South Head Road, while offering swift access to some of Sydney's finest schools including Kambala and Kincoppal Rose Bay.
