Live your best life here

This modern single-level block home in the sought-after suburb of Cullinane will not be on the market long.

It is all about living and relaxing at home. From the moment you walk through the front entryway, the fully tiled open-plan living leads you to the stunning kitchen with its high gloss cabinetry and stone waterfall edge benchtops. Stainless steel appliances, double fridge space, and large island bench. This is an impressive kitchen.

From here bifold doors merge the inside with the out, where the huge under-roof outdoor living area flows to the inground pool with its cascading water feature. You will spend half your time in the pool, and the rest enjoying happy hour around the poolside bar area.

The house has two large living areas inside and three generous bedrooms the main with a lovely double shower ensuite and walk-in robe. The whole house is air conditioned and presents without a scratch. It would be very easy to convert the second lounge room into two more bedrooms if required, or even a self-contained separate living space. The cars and boat are housed under the very high clearance double-length carport with lockable storage.

Located an easy walk to town and close to all amenities on a level and fully fenced 800 sqm block this is a very desirable home in a very desirable area and will appeal to families or a couple retiring to town from the farm or moving up from down South.
