\$240,000

Workers cottage on 493m² block in the centre of Maryborough. There is no doubt this one is rough and may not be able to be saved, but whether you buy this for the block or to bring the old girl back to its former glory, the location is so central you could walk to everything! The home itself is a low set workers cottage with 2 bedrooms, lounge/dinning area and what was once a kitchen and a shower room. Outside to the rear is a toilet area. The level block is 493m² and includes a lean to to the rear that has seen better days! What more can I say, other than this is not just a cosmetic touch up job but for the non-fainthearted these workers cottages can be quite beautiful when fully restored. Call now for more information or attend one of the open homes listed. This property is being sold on an 'as is where is' bases.
