It means "no worries....." "One of the most exquisite properties we have ever offered to the market and a true pleasure to represent... number 577 Brookton Highway offers an unrivalled lifestyle only a few will ever experience. Immersed in spectacular garden surrounds, showcasing hundreds of evergreen and deciduous tree and plant species, creating an entrancement of the senses. This award winning property has become available for only the fourth time in the past century! First settled in circa 1930 by pioneers Robert and Martha Wesley, 'Hakuna Matata' was originally established as an orchard for the supply of fruit during World War 2. It has since been extensively developed to what it is today by renowned Hills landscaping Designers and constructors 'The Creative Group'. Clever and intricate planning over the past two-decades has ensured attention to detail, and in combination with a 'no expense spared' approach, resulting in a semi-rural estate befitting of the world stage. With absolute care being taken to ensure the original homestead remain harmonious to the 1930's roots, consideration has been taken at all stages of its transformation and re-creation to encapsulate its authenticity, resulting in a near 100 year old residence being shown in her full grandness. Ensuring endless all-season entertainment, the superb Bali inspired resort level inground swimming pool and cabana complete with full kitchen facilities is on another level. Pivotal and central is the racing inspired 'man-cave' and amazing showroom catering for the passionate car enthusiast. Further complimenting this is the specifically constructed shed/ mancave. In total allowing for 10 plus vehicles to be loved and housed. A true work of art in all aspects of its being 'Hakuna Matata' is an inspirational property in every sense of the word.
