Space Freedom and views

Located on top of this beautiful ridgetop with scintillating rural views across the lowlands back to Windsor, sits this architecturally designed 3-bedroom family home on just over one acre of land.

The home itself has all the creature comforts you would expect with large open plan living areas, high vaulted ceilings and large timber windows and sliding doors to capture those summer breezes.

The bedrooms have built in robes and there is an ensuite to the master bedroom, but it's the summer evenings out in your screened sunroom looking out over the farmland that will put the soul at ease.

Natural light is a feature of the home, and the clever design allows you to get full natural light throughout the home all day from the morning until the late afternoon.

There is a long jacaranda lined driveway leading up to the home where there is undercover parking for two cars and numerous established gardens and trees and there is still plenty of space for a larger shed if you so desire.

So who said you can't have the best of both worlds. At 59 Kurmond Rd, Wilberforce you can feel like you are living on a thousand acres without the maintenance and price tag that goes with it and if you don't believe us why not come take a look for yourself.
