NEAT - LOW MAINTENANCE - 700M FROM BEACH

Hidden behind the high block wall with electric gate sits this very cute, neat as a pin, three-bedroom, one-bathroom, recently upgraded solid block home with loads of character. Only 8 properties in the small cul-de-sac means no through traffic, great for the kids.

Located only 700m (approximately) from Wonga Esplanade means sunrise rise beach walks are easy. The position of the home on the fully fenced 803m² block was very well thought out by the original owner (built 1997) to ensure the bulk of the block allows plenty of space for the kids, grow food, or that huge man cave you have been wishing for.
