Classy renovation single level bungalow

Sitting on a 1012 sqm block of land, this single-level bungalow is fully renovated from top to toe. It has fresh paint, new tiles, a new kitchen, a new bathroom, new floor coverings, and new air conditioning. This home is perfect for a downsizing retiree.

The main living room is open-plan and quite large. It has a 6.6 KW air conditioner, which is truthfully big enough to cool the entire house. The kitchen has new cabinetry, a new sink, and a stainless steel oven. The subway tiles give it a real sense of style. The hallway leads to a large laundry room with a separate toilet and then the fully renovated bathroom with a massive walk-in shower.

There are three bedrooms with the master bedroom having a brand new air conditioner. The floor coverings consist of vinyl planks in the main living room and traffic corridors with carpet in the bedrooms and tiles in the entry, kitchen, and bathrooms.

There is not a cent to spend on this property, it is absolutely move-in ready with vacant possession on offer.
