GO TO SLEEP WATCHING THE STARS, WAKE UP TO THE OCEAN VIEW

The combination of quiet, spacious living and high-quality finishes really makes this home stand out. Winning MBA Awards for the upstairs extension is impressive, but the stunning kitchen, laundry, and bathrooms are a touch of magic. With 5 bedrooms and 3 bathrooms, it's perfect for families or anyone needing extra space. The stunning kitchen with stone benchtops, a 900mm oven, and a dishwasher is sure to be the heart of the home, especially with its view of the patio and pool.

The upstairs living area, complete with a kitchenette and ocean views, adds a unique touch for entertaining or relaxing. Outside has had an amazing makeover with quality finishing that enhances family experience that this home can so clearly create.

There are multiple other features to this home as well.

Separate theatre room downstairs, with block out blinds.

Double shed down the side, remote garage door to the front carport.

Security doors and good storage.

Upstairs Deck with magnificent views with new glass balustrading to enhance the outlook.

New glass pool fencing and Merbau screening to beautifully showcase this wonderful family entertaining area.

Freshly landscaped, including Teddy Magnolia Trees.

180 degree ocean views. You can go to sleep looking at the stars and wake up looking at the ocean!
