Quiet cottage in a quiet village

This is the perfect retirement home and it won't bust your budget. It is a short street with no through traffic on the edge of a lovely rural village. The home features three bedrooms and a very modern open-plan kitchen and dining area which flows out to the beautiful back porch. Sitting here and having a cup of tea you would not know the rest of the world existed. You overlook the beautiful gardens which then back onto a small escarpment with only cane fields beyond. With the awnings rolled out you are sheltered from the sun and the rain.

Most of the floors are tiled, and the bathroom has been fully renovated. The solar panels mean that the almost new air conditioners run for free and can be left on day and night. The house is very private from the street courtesy of the lovely front gardens.

The village is serviced by a local pub, post office, and butcher shop. There are two schools and it is just a ten-minute drive into town.

If you are looking to retire and downsize, love gardening, and crave some peace and quiet, then this is definitely the house for you. There is not a cent to spend.
