Brooke Lal

Style & Space

A celebration of low-maintenance living, this lovely residence was constructed by Dennis Family Homes and holds a firm focus on effortless entertaining across the 624 sqm (approx.) allotment. It would be ideal for first home buyers, downsizers, young families and investors looking to set and forget!

A modern facade wrapped within minimalistic gardens and a concreted drive, opens to reveal modern stylings and an intelligent three-bedroom, two-bathroom layout that invites you in to a wonderfully uncomplicated lifestyle.

The heart of the home features an open plan living, dining and kitchen complete with quality appliances, a stone waterfall bench top, a walk-in pantry and generous storage space. There is also sliding, bi-fold doors from both the main lounge and secondary living space that connect to the private alfresco and this area, would make the perfect spot to create many fond memories with family and friends.

Without forgetting to mention there is a new ducted heating unit, ceiling fans, a split system, laundry with ample storage, plantation shutters plus many other great additions. For those needing extra storage space, also discover the benefit of a remote-controlled double garage with additional workshop and rear roller door access.

This is a golden opportunity that represents both space and style.
