Offers Over \$549,000

Step inside and be surprised at this smaller home located in one of Invermay's back streets providing seclusion and privacy both inside and out. 8 Gaunt Street is a thoughtfully designed 3 bedroom, 2 bathroom home constructed in 2014 with low maintenance in mind, perfect for the first home buyer, investor or couple looking to downsize but still maintain a high standard of living. Located in a no thru street the floor plan takes in every conceivable inch and utilises it to the maximum. The neutral colours will blend with all styles of furniture ensuring that if you are coming from a larger home furniture will not have to be sacrificed. The three bedrooms are large enough to take the maximum sized beds and both bathrooms are spacious as well. The other surprising feature is the amount of storage available throughout the build. Good car storage is available in the form of a single garage with remote roller door and one additional off street parking spot. Beautifully landscaped the rear yard has been tastefully paved to provide a gorgeous rear entertaining area able to host a good sized guest list and you will be amazed at the portable bbq enclave perfect for those family gatherings. Located a short walk to Invermay Road with supermarket facilities close at hand along with public transport ready to shoot you straight into the city every ten minutes. With the Utas facility close by why not consider 8 Gaunt Street as the perfect investment or home for your children? Call today for your inspection.
