Hard to find Brick & Tile at this price!

This is an opportunity here to enter the market at a low price for a Brick & Tile home that needs some TLC. Property Features: • 3x1 brick and tile built in the late 1970's • Concreted undercover back patio • Driveway, walkways, and paved areas made of concrete • Split system in the living room • Tiled bathroom with vanity and shower • Separate toilet • Kitchen with gas oven, double sink and pantry. Please note that there are parts of the property that require some work such as the garage and Patio and the yards; however, the house is a very solid brick home and is being sold in "as is" condition. A Full up to date Structural Building Inspection is available upon request.
