## **Beautiful Home with a Large Shed!!**

This highset renovated 3 bedroom home has everything, if you want a quiet place to live and heaps of room & sheds. The property sits in a No Through Street quiet street, is fully fenced, with a double remote garage on the front & access to upstairs, under the house or the backyard to the shed. The roof has been replaced & freshly painted outside & inside plus there's a 6.6klw solar power.

Upstairs is air-conditioned & has ceiling fans throughout. There's a great kitchen with heaps of storage, tiled living areas and carpet in the built-in bedrooms, ceiling fans throughout & the bathroom has a shower & bath. A great back secure patio to sit in the afternoons or BBQ's. Downstairs has been totally repainted, upgraded laundry, a large air-conditioned room which is perfect for teenagers or a rumpus room, heaps of room for storage & a BBQ area. Pop-up sprinklers maintain the perfect Sir Walter turf front & back.

The property has rear lane access to a large 2 door remote powered shed & a man cave, plus extra parking on the side of the shed. This is a property that you won't need to do a thing too, but just move in & enjoy it. A building & Pest Report has been done to take the cost down & can be provided on request to interested parties. Great neighbours all around this impressive home. An inspection is a must so don't miss the open house times or you will be disappointed.
