## 'Cloudridge'

For more information and to appreciate 'Cloudridge' and all it has to offer, click on the property video!

Appreciate the valley with uninterrupted views; this north-facing aspect and orientation of the home capture refreshing breezes. The home, only completed in 2019, has been thoughtfully designed to embrace the expansive country views from every room while offering the opportunity to put some personal finishing touches on it with your own desires.

1 hr from the Brisbane Airport and CBD, Aptly named 'Cloudridge' is situated on 29.61 ha (73.17 ac\*), the ideal rural lifestyle escape or recreational acreage, with elevated ridgelines and relaxed and refreshing mountain views.

With over 70 acres, this size acreage offers the opportunity to carry livestock ranging from cattle, goats, and horses, the list really can go on and is not limited to livestock. Committed to the long-term vision of creating a food forest applying permaculture principles, our current owners have planted a large variety of fruit trees that are established and now producing.

Book your private inspection and come check it out, as this property can really only be appreciated on inspection.
