FIRST OPPORTUNITY TO PURCHASE IN 30 YEARS

VIEWS - PERMANANT CREEK - RICH FERTILE PASTURE - TWO STREET ACCESS

This property has never been offered to market before as is, as a fully fenced, cleared and usable five-acre block with a four-bedroom, two-bathroom home with great old bones and one best blocks in the area for livestock or produce.

Very much a sought-after location with available properties being snapped up instantly. Picturesque is a word that comes to mind - this is how I felt when I first walked the block, the vistas, breezes and sunset is breathtaking!

The home offers plenty of opportunity to expand and the substantial rear undercover area is certainly a great space for all year round entertaining or just lounging around and watching the sunsets.

The block also offers a creek at that runs along rear with plenty of recent planting on the road side for privacy. A great space for the kids and fur babies to roam around safely . Another benefit to the lucky new owner is the brand new bore and water tank.
