Flat half acre block ready to build on

This generous 2423m² block close to the water on the River Heads Peninsula just 12 mins from Hervey Bay has just been sub-divided and is ready to build on.

Watermans Way has been booming with many brand new quality builds going up in the street this year, the nice flat block ensures easy building.

The block has town water, underground power and NBN ready for connection and the block is free of any special building covenants or time frame restrictions. Just across the road is a large community park with sports oval and playground to walk the dogs and let the kids play.

Just 2 mins drive from local shopping village, public boat ramps and K'Gari ferries this location has it all.
