Freshly Cleared and Surrounded by Conservation Blocks!

This 546m² block has been recently cleared and is looking fresh and fabulous. The blocks to the left and right are conservation blocks and unable to be built on - imagine the serenity!

Located in the south-west part of Russell Island, just off Centre Road, it is close to the all-tides boat ramp, Lions Park and Sandy Beach Recreation Reserve.

This secluded section of Tahlin Drive is surrounded by natural bush and accessed by a dirt road. The remainder of the street, heading west, is on a gravel road and contains houses and treed blocks.

The block itself is 546 sqm with an 18.1m frontage and 30.2m sides. There are some existing trees on the block, mostly to the rear.

Russell Island has all the infrastructure and facilities you need to live comfortably.
