Where Mediterranean Elegance Meets Tranquil Seclusion

Villa 1 at Sol-y-Sombra exudes a Spanish-inspired design that captures the essence of Mediterranean elegance. Upon entering, one is immediately drawn to the harmonious blend of traditional elements and modern conveniences. High ceilings create an expansive, airy ambiance that echoes the grandeur of Spanish villas, while the carefully chosen interior palette reflects the earthy tones and rich textures characteristic of Mediterranean aesthetics.

Central to the design are the stunning private gardens that envelop the property, providing a serene haven of natural beauty. These meticulously landscaped spaces are a vital component of the Spanish theme, encouraging outdoor living and offering a level of privacy akin to a secluded oasis. The indoor-outdoor flow is seamless, with large windows and doors that allow natural light to flood the interiors, highlighting the craftsmanship and design details.

Alfresco living is at the heart of the design philosophy, celebrating the harmonious blend of interior and exterior spaces. The northern aspect ensures a bounty of breezes and natural light, adding to the comfort and relaxation afforded by the home's air conditioning. This distinctive fusion of style and functionality creates a living space that feels more like a private house.

Perfectly located just a few minutes' walk to the beach and village, and approximately 100 meters to the magnificent Noosa National Park.
