Looks Can Be Deceiving: A Surprisingly Spacious Duplex

Looks Can Be Deceiving: A Surprisingly Spacious Duplex

We're so excited to introduce 2/5 Olsen, a modern duplex that might look compact from the outside but is incredibly spacious and designed for comfort, relaxation, and easy living. This home has everything you could want, blending open, airy spaces with beautiful gardens to create the perfect retreat.

Step inside and you'll be blown away by the huge open-plan living and lounge area, perfect for spending time with family or hosting friends. This space flows out to a private backyard that features an inground pool and deck-ideal for summer fun or just kicking back with a drink in hand. The gardens are lovely and easy to maintain, making the whole outdoor area feel like your own little oasis.

The designer kitchen is a real showstopper, with granite benchtops, a walk-in pantry, and a big 900mm oven with a gas cooktop-perfect for anyone who loves to cook. Upstairs, there's plenty of room for a study nook or play area, along with four big bedrooms. The master bedroom is a highlight, with a spacious ensuite featuring double basins and a walk-in shower that feels more like a spa than a bathroom.

Some other features you'll love:

Air conditioning and fans throughout to keep you comfy all year round

A double lock-up garage with extra height for storage

Ground-floor powder room for guests

Elevated ceilings that make the home feel even bigger

Low-maintenance backyard with an undercover entertaining area

The location is the icing on the cake-just 3 minutes to the Port of Airlie boat ramp and the heart of Airlie Beach.

Don't let the outside fool you-this is a seriously spacious and beautiful home that offers the ultimate mix of luxury and practicality. Get in touch today to find out more, including floor plans, council rates, and video walkthroughs.
